

🎉 ✨ Hey Scholars, Researchers & Lifelong Learners! ✨ 🎉

Introducing **Folium** 🌿 — your *ultimate PDF reading companion* for academic excellence and stress-free research! 📖💡

🚀 Built with ❤️ using **Electron-Vite**, Folium is a **fast, sleek, and powerful** open-source PDF reader designed *specifically* for reading scientific papers, theses, and dense literature — and YES, it's **100% FREE!** 🎁🌍

🎯 **Perfect for these key scenarios:**

🔍 **In-Depth Reading of Research Papers** — Dive deep into complex literature with focus and clarity!

🎤 **Presenting & Explaining Papers (Lit Reviews, Journal Clubs, etc.)** — Annotate, highlight, and prep your *perfect presentation* with ease! 🎓📊

🔥 Here's what makes Folium *your new best friend*.

🖋️ **Multi-Layer Annotation** — Draw, highlight, scribble, and layer your notes like a pro!

💬 **One-Click Word Translation** — Stuck on a tricky term? Highlight & translate instantly!

🖥️ **AI-Powered Full-Text Understanding** — Let AI summarize, explain, or even Q&A the paper for you! 🤖💡

💻 **Cross-Platform Magic** — Works flawlessly on **Windows & Mac!** 🍏

🔒 **Open Source & Free Forever** — No paywalls, no ads, just pure academic love. 💙

We poured our hearts into Folium to make your research journey smoother, smarter, and way more fun! 🥰❤️

👉 Ready to transform the way you read?

📥 Download **Folium** now and join the revolution: [Insert GitHub/Website Link]

☀️ Whether you're a PhD warrior 🎓, a curious undergrad 📖, or just someone who loves learning — **Folium is for YOU!**

Let's read smarter, together. 🤝
